

PRODUCTS MANUAL

Shenzhen EN Plus Tech Co., Ltd.

Global Supplier for EV Charging Facilities
and Software Platform

CONTENTS

Company Introduction	01
Certification	02
Why Choose Us	03
Memo Series Portable Box(EU Standard)	04-05
Bello Series Home Wallbox(EU Standard)	06-07
Alvis Series Home Wallbox(EU & UK Standard)	08-09
Caro Series Home Wallbox(EU & UK Standard)	10-11
Caro Pro Series Home Wallbox(EU & UK Standard)	12-13
Saro Series Home Wallbox(EU & UK Standard)	14-15
Vita Series Business Wallbox(EU & UK Standard)	16-17
Nano Series Duo Wallbox(EU & UK Standard)	18-19
Cubo Series AC Charger(EU Standard)	20-21
Corebox Series DC Charger(EU Standard)	22-23
Mobox Series DC Charger(EU Standard)	24-25
Turbo Series DC Charger(EU Standard)	26-27
Rocket Series DC Charger(EU Standard)	28-29
Silk Series Home Wallbox(US Standard)	30-31
Solvo Series Business Wallbox(US Standard)	32-33
Caro Series Home Wallbox(JP Standard)	34-35
Taro Series Business Wallbox(JP Standard)	36-37
Turbo Series DC Charger(JP Standard)	38-41
Power Module	42-43
Cloud Platform	44
Management System	45
Mobile App	46
Load Balancing Solution	47
Solar Charging Solution	48
Charging Solution	49
Project Cases	50-52

Company Introduction

- Founded in 2015, total-solution supplier of EV charging station and cloud management system
- Top R&D team in China, rich experience in international protocol (OCPP 1.6J above)
- Full-range products, exported to over 40 countries and regions since 2016
- Independent capability of design, manufacture and sales, all-in-one service
- Product line covers Portable Charger, AC Charger, DC Charger, Power Module and Cloud Management System and Mobile App, all independently developed by ourselves

Why Choose Us

Product Portfolio

- Rich Product Series & Certifications
- Versatile Software Ecosystem for Service
- Comprehensive Solutions for Scenario Applications

Production & Delivery

- Automotive-grade Quality Standards
- Fully Integrated Intelligent Production Line
- Digital Management System

Tech Innovation

- 100+ Independent R&D Patents
- Forward-looking Technology Research Reserves
- Efficient and Customized Services.

Service Support

- Global Market Service Capabilities
- Comprehensive Product Service Management
- 24/7 Online Support.

Memo Series Portable Box

Memo Series Portable Box adopts a wire-winding design for space-saving and easy carrying with EVs. It employs comprehensive electrical protection plus IP67 ingress proof and UV resistance to ensure charging safety.

EU Standard

Simple Use

- Portable, easy to carry
- Wire winding design
- Plug to Charge

Legible Identification

- Clear LED light indication
- Charging status identification
- Color OLED

Robust Structure

- Corrosion proof
- IP67 ingress protection(body)

Security & Safe

- Over & residual protection on current, voltage & frequency
- Surge Protection
- Over temperature protection

Memo Series Portable Box

Datasheet	Model	AC3500-DE-20
Electrical Specification	Power Supply	1P+N+PE
	Rated Voltage	230V AC
	Rated Current	16A
	Frequency	50/60HZ
	Rated Power	3.5kW
Basic Attributes	Charge Connector	Type 2 Cable
	Cable Length	4m
	Enclosure	PC
	LED Indicator	Green/Yellow/Red
	Start Mode	Plug to Charge
Safety	Ingress Protection	IP67 (Body)
	Impact Protection	IK10 (w/o Screen)
	Electrical Protection	Over current protection, Residual current protection Surge protection, Over/Under voltage protection, Over/Under frequency protection, Over temperature protection
	Certification Standard	IEC 62752-2018 IEC61851-21-2:2021
Working Environment	Warranty	2 Years
	Operation Temperature	-30°C~+50°C
	Work Humidity	5%-95%
Package	Work Altitude	≤2000m
	Product Dimension	212*92*55mm (H*W*D)
	Package Dimension	300*130*270mm (L*W*H)
	Net Weight	1.9kg
	Gross Weight	2.5kg
External Package	Handbag/Carton	

Bello Series Home Wallbox

Bello Series designs to provide a stable and versatile charging environment for household use. The 7kW RFID active single-phase AC charger ensures 32A output current as a maximum. Its high compatibility allows charging for all Type 2 EV models.

EU Standard

Small Footprint Design

- A5 paper size equipment
- 4m wiring cables

Simple Operation

- Start/Stop charging by RFID card
- Simple HMI with LED indicators

Flexible Option

- Type 2 charging cable
- 16A/32A adjustable output current
- RFID authentication, optional with Plug to Charge
- Wall-mounted/floor-stand installation

Secure & Safe

- Over temperature protection
- Over & Residual current detection

Bello Series Home Wallbox

Datasheet	Model	AC7000-AE-05
Electrical Specification	Power Supply	1P+N+PE
	Rated Voltage	230V AC
	Rated Current	32A
	Frequency	50/60HZ
	Rated Power	7kW
Basic Attributes	Charge Connector	Type 2 Cable
	Cable Length	4m
	Enclosure	PC
Interactive Interface	LED Indicator	Green/Yellow/Red
	RFID Reader	Mifare ISO/IEC 14443A
	Start Mode	Plug to Charge/RFID
Safety	Ingress Protection	IP65
	Impact Protection	IK08
	Electrical Protection	Over current protection, Residual current protection Surge protection, Over/Under voltage protection, Over/Under frequency protection, Over temperature protection
	Certification Standard	EN IEC 61851-1:2019 IEC 61851-1:2017 IEC61851-21-2:2021
Working Environment	Warranty	2 Years
	Operation Temperature	-30°C+50°C
	Work Humidity	5%-95%
Package	Work Altitude	≤2000m
	Product Dimension	233*150*70mm (H*W*D)
	Package Dimension	380*285*175mm (L*W*H)
	Net Weight	2.5kg
	Gross Weight	3.0kg
	External Package	Carton

Alvis Series Home Wallbox

The stylish Alvis Series Home Wallbox is perfect for Type 2 EV models. With network connectivity and OCPP 1.6 compatibility, it offers load balancing feature. Ideal for residential use, it combines style and functionality. It is certified with ETSI EN 303 645, ensuring network security for consumer IoT devices.

EU & UK Standard

Intelligent

- Connectivity: Wi-Fi+4G/Wi-Fi+Ethernet
- Smart mobile App control
- Scheduled charging
- OCPP 1.6 Json
- Dynamic load balancing

Flexible

- Type 2 cable
- Wall-mount/Pole-mount installation
- App operation/RFID authentication/Plug to Charge

Secure & Safe

- 30mA Type A + 6mA DC
- Relay-sticking protection

Caro Series Home Wallbox

Caro Series Home Wallbox, a 2023 Red Dot Award winner, adds elegance to any charging location, be it at home, in business settings, or semi-public areas. Solar power-compatible for eco-friendly charging, its intelligent load management system reduces grid peak pressures. Experience powerful load balancing with up to 20 chargers on a single circuit. Enjoy the flexibility of 1A grid charging, optimizing energy usage with seamless PV integration.

EU & UK Standard

Pearl White Space Black Emerald Green

Versatile

- Type 2 cable/socket
- Wall-mount/Pole-mount installation
- Three enclosure colors
- Activated by NFC

Intelligent

- Communications: Wi-Fi+4G+Bluetooth/Wi-Fi+Ethernet+Bluetooth
- App charging scheduling
- Dynamic load balancing with LBC

PV Compatible

- 0 emission PV charging
- Seamless integration with PV systems
- Adjustable current for optimized PV usage

Safe & Convenient

- 30mA Type A + 6mA DC
- Relay-sticking protection

Caro Pro Series Home Wallbox

Caro Pro Series Home Wallbox embodies simplicity and environmental responsibility. Not only does this wallbox support PV charging, it also incorporates dynamic load balancing to relieve the grid during peak hours. By harnessing solar power for eco-friendly charging, it helps reduce electricity costs and meets your green objectives. Its intelligent load management ensures optimised energy use through seamless PV integration.

EU & UK Standard

Versatile

- Customizable enclosure choice
- Activated by RFID
- Convenient back plate for easy cable access

Intelligent

- Multi communications
- App charging scheduling
- Dynamic load balancing

PV Compatible

- 0 emission PV charging
- Seamless integration with PV systems
- Adjustable current for optimized PV usage

Safe & Convenient

- 30mA Type A + 6mA DC
- Relay-sticking protection
- Ergonomic and user-friendly enclosure design

Saro Series Home Wallbox

Saro Series Home Wallbox is designed to meet the demanding needs of homeowners. It offers a variety of connectivity options and features a compact, space-saving design. With its dynamic load management system, users can enjoy cost-effective charging solutions. It is also easy to operate and maintain via a user-friendly app or software system, ensuring maximum flexibility and convenience.

EU & UK Standard

Versatile

- Type 2/T2S Socket
- Customizable enclosure choice
- Activated by RFID
- Convenient back plate for easy cable access

Intelligent

- Multi communications(Wi-Fi/4G/Ethernet)
- App charging scheduling
- Dynamic load balancing

PV Compatible

- 0 emission PV charging
- Seamless integration with PV systems
- Adjustable current for optimized PV usage

Safe & Convenient

- 30mA Type A + 6mA DC
- Relay-sticking protection
- Ergonomic and user-friendly enclosure design

Vita Series Business Wallbox

Vita Series Business Wallbox prioritizes safety and efficiency, complying with UK's EVSCP & EU standards. It seamlessly integrates into any setup. Effortlessly manage your charging through the cloud platform and remote maintenance. The sleek design ensures easy installation, while Wi-Fi & Ethernet connectivity enables convenient control via the mobile app. Rest assured, the MID certified energy meter guarantees the utmost accuracy in your charging experience.

EU & UK Standard

Simple

- Tempered glass front panel
- Robust enclosure
- Easy installation
- Vinyl branding options available

Flexible

- Type 2 cable/Type 2 socket
- Wall-mount/ Pole-mount installation
- App operation/RFID authentication/Plug to Charge

Intelligent

- Communications: Wi-Fi+4G/Wi-Fi+Ethernet
- Smart mobile App control
- 2.7" B&W information display
- OCPP 1.6 Json

Secure & Safe

- 30mA Type A + 6mA DC
- Independent RCBO
- MID certified energy meter with accurate measurement

Nano Series Duo Wallbox

The Nano Series is a new generation of 2X22kW AC chargers, available in both commercial and home versions, suitable for use in residential communities, commercial properties, and private settings. It supports remote parameter viewing and control, Ad Hoc, and card activation. It has 8 built-in safety protection functions to ensure user safety. It can be equipped with a wireless router that supports full network access or be wire connected to the network. Smart solutions such as load balancing is also available to save costs and facilitate management.

EU & UK Standard

Innovative

- Type 2 socket / cable, 2x11kW / 1x22kW / 2x22kW simultaneously
- Suitable for home & semi-public use
- Easy to install by plugging back plate
- Installation cost saving

Intelligent

- Communications: Wi-Fi+4G+Bluetooth+Ethernet
- OCPP 1.6 Json
- Dynamic load balancing with LBC

Flexible

- Compatible with all EV & PHEV models
- App operation/RFID authentication/Plug to Charge
- Optional socket and cable version
- Option to select MID meter or opt out

Secure & Safe

- 30mA Type A + 6mA DC
- Independent RCBO
- MID certified energy meter with accurate measurement
- IK10

Cubo Series AC Charger

Cubo Series AC Charger offers simultaneous dual charging. With high-output capability and flexible modes, it achieves extensive compatibility. Its sleek design is customizable, allowing for personalized branding. Advanced safety features ensure secure charging in any environment.

EU Standard

Minimalistic

- Compact, slimline enclosure
- Built-in socket holder
- Easy installation

Flexible

- Type 2 cable
- Floor-stand installation
- App operation/RFID authentication/Plug to Charge

Intelligent

- Communications: Wi-Fi+4G+Bluetooth/Wi-Fi+Ethernet+Bluetooth
- Smart mobile App control
- Scheduled charging- for low tariffs
- OCPP 1.6 Json
- Dynamic load balancing

Secure & Safe

- 30mA Type A + 6mA DC
- Independent RCBO
- MID certified energy meter with accurate measurement

Corebox Series DC Charger

Corebox Series DC Charger is designed for efficiency and convenience, it delivers high-speed charging to keep you on the move. With its intelligent features, it offers seamless integration with smart grids, load balancing, and remote monitoring capabilities. The sleek and compact design fits perfectly into any environment, while the user-friendly interface provides a hassle-free experience. Equipped with advanced safety features and compatibility with various EV models, this DC charger is the perfect solution for both commercial and public charging stations.

EU Standard

Innovative

- Anti-theft lock with special unlock tool
- App control & operation
- Faster charging with smaller installation space

Intelligent

- OCPP 1.6 Json

Flexible

- Wall-mount/Pole-mount (Optional)
- Start modes: RFID/App

Secure and Safe

- Modular design, easy to repair and replace
- Emergency stop switch, improving the safety

Turbo Series DC Charger

Turbo Series DC Charger, delivering lightning-fast charging speeds ranging from 60-120kW. Designed for high-powered performance, it keeps electric vehicles on the road in no time. Seamlessly integrating with smart grids, it optimizes energy usage and enables remote monitoring and control. The sleek and robust design ensures durability and easy installation in any environment. Equipped with advanced safety features and compatibility with various electric vehicle models, this smart DC charger offers fast, efficient, and future-proof charging.

EU Standard

Efficient

- One charger with multiple outputs, simultaneously charging
- Output up to 120kW
- Support full power output for 300A cable

Flexible

- App operation/RFID authentication
- CCS2 as standard, CHAdeMO, CCS1 and GB/T support is customizable
- Flexible allocation of 30kW granularity
- Optional with POS machine & cable management
- Multi-language support

Intelligent

- Ethernet/4G/Wi-Fi communication all supported
- OCPP 1.6 Json
- Intelligent operation by App and cashless payment

Secure & Safe

- Full level of electrical protection
- IK10(w/o screen) impact protection
- MID Meter(Optional)

Rocket Series DC Charger

The Rocket Series DC Charger uses a 30kW/40kW constant power module to reduce charging time with high current output. It smartly allocates power to meet different vehicle charging needs for safe and fast charging. With IP54 protection, it adapts to all weather conditions and has multiple protection functions for user safety. Maintenance is easy with support for remote OTA upgrades and operation/maintenance platforms.

EU Standard

Efficient

- CCS2 as standard, CCS1, CHAdeMO and GB/T support is customizable
- Two connectors up to 300kW in total
- Wide voltage range: 200-1000V DC

Flexible

- App/RFID/QR Code
- POS terminal with contactless card payment

Intelligent

- Multiple communication: Ethernet/4G/Wi-Fi
- OCPP 1.6 Json with CMS
- E-payment through App/POS

Secure & Safe

- Ingression protection: IP54
- MID Meter(Optional)

Silk Series Home Wallbox

The Silk Series Home Wallbox is a stylish and user-friendly charging solution with a Type 1 connector and smart app integration for easy installation and use. UL-certified, dustproof, and waterproof, ensures the top priority of EV charging safety. In addition, Silk Series wins Red Dot Award for its distinctive design, it also offers intelligent load management and seamless PV integration for optimized energy usage.

US Standard

10kW

12kW

Flexible Options

- Wall-mount/pole-mount
- Hardwired/NEMA plug
- 4 enclosure colors
- Multiple charging modes

Environmental Friendly

- Certified by Energy Star
- Eco-friendly enclosure materials

High Reliability

- Anti-welding protection
- NEMA 4 dustproof and waterproof design
- CCID 20 leakage current protection
- UL listed and CSA certified

Smart Operation

- Multi communications (Wi-Fi/Bluetooth/Ethernet)
- Dynamic load balancing
- PV compatible
- Scheduled charging

Power Module

The EN Plus 30kW DC power module is a top industrial solution designed specifically for large EV chargers. It utilizes cutting-edge power electronics technology, resulting in an impressive 96.2% efficiency and just 6W standby power consumption. This translates to significant energy savings and a reduced environmental impact. The module's ultra-wide constant output voltage range guarantees compatibility with all EV models. Its unique protection design enhances reliability and extends the service life of EV chargers, while the remote OTA function reduces operating costs for users. The module has passed TÜV CE certificate and meets EMC CLASS B requirements, ensuring its quality and safety.

Cloud Platform

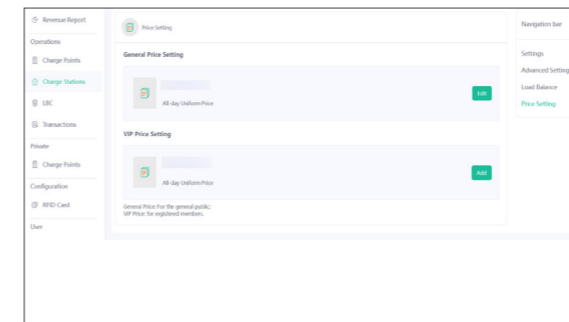

Dedicated to enable the future of e-Mobility by providing the most open, secure and robust charging network everywhere, a charging platform based on the cloud server makes it simple and convenient to meet the diverse demands of charger operators, charging users and e-Mobility service providers. We provide everything you need to offer a complete EV charging solution.

- **Management System:** A central system for charger operators to manage charge points and monitor charging service. Status monitor, charge record, prices management, firmware upgrade, remote diagnose, and load balance are offered in one capable system.
- **Mobile App:** A charging App for EV drivers who needs charging service. Prices, locations, availability, start/stop charging, and auto billing are available in an easy way.
- **Interoperability:** Connections with e-Mobility Service Providers who have EV drivers as customers are viable through the open charge point interface protocol (OCPI).

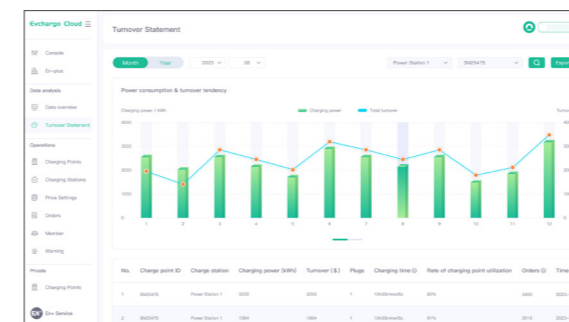

Management System

The management system is designed for operators to manage the charge points and the charging service to all users. The future of charging is smart, and our management system is equipped with future-proof features. The system works on the cloud, which enables us to update new features rapidly.

Fee Pricing Strategy

- Use third-party payment platforms such as Stripe, PayPal, Nets for fund transactions.
- Set different fee rates for different types of users to meet different needs.

Distributor Cloud Platform Management

- Customers can grow their network by developing sub and creating merchant accounts.
- Distributor accounts are emailed to allow access to our platform, with data automatically synchronised with parent accounts.

Smart O&M

- Real-time back-end monitoring of site and station data.
- Technical staff can view and analyse logs through the back-end system and resolve equipment issues via remote OTA upgrades.

Operational Data Analysis

- Customers can examine daily/monthly charge volume and revenue data by time dimension.
- Statistical data analysis at station/site level, with export support for reference purposes.

Mobile App

The charging App connects EV drivers with charging stations, so that they can easily find a charger and enjoy the charging service. It enables users to do location search, charging monitor and payment settlement. All is done in a mobile phone.

PV Green Energy

0 cost for green mode solar charging
Effective mixed mode charge with both solar and grid energy

Smart Charging

Wi-Fi | Bluetooth | Plug & Play

Scheduled Charging

Set periodic scheduled charging

Load balancing

Support for adjusting EV charger output

Device Authorisation

Support for authorising use by friends and family

Charging Data

Facilitates maintenance and adjustment of the charge station layout.

Account Sign up

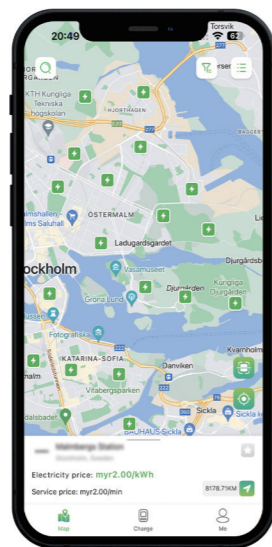

Easy sign up with a mobile phone number

Location Search

Quick search for available charging facilities

Charging Operation

Friendly interface and convenient operation

Real Time Monitor

Real time presentation of charging consumption

Cashless Payment

Mobile payment from credit card, like Nets, PayWay Stripe

Auto Billing

Secure billing through registered account

Load Balancing Solution

Single Charger Load Balancing Solution

When the power consumption exceeds the limit, the charger's current is restricted to protect house load.

Multi-Charger Load Balancing Solution

1. Full-Load Charging Mode: first come first charge, responding to different users' need.
2. Balance Charging Mode: evenly distribute power to all chargers, relieving anxieties with

Intersite Load Balancing Solution

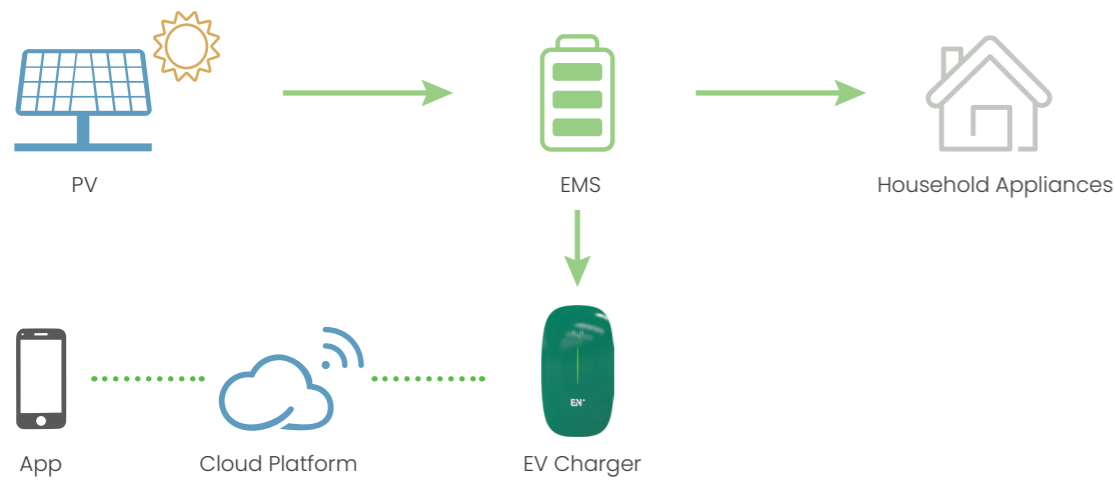

When there are large supermarkets or high power consuming communities around the station, the station dynamically obtains electricity consumption information from the grid and adjusts its maximum power. This solution create an electricity-friendly community by protecting the grid.

Solar Charging Solution

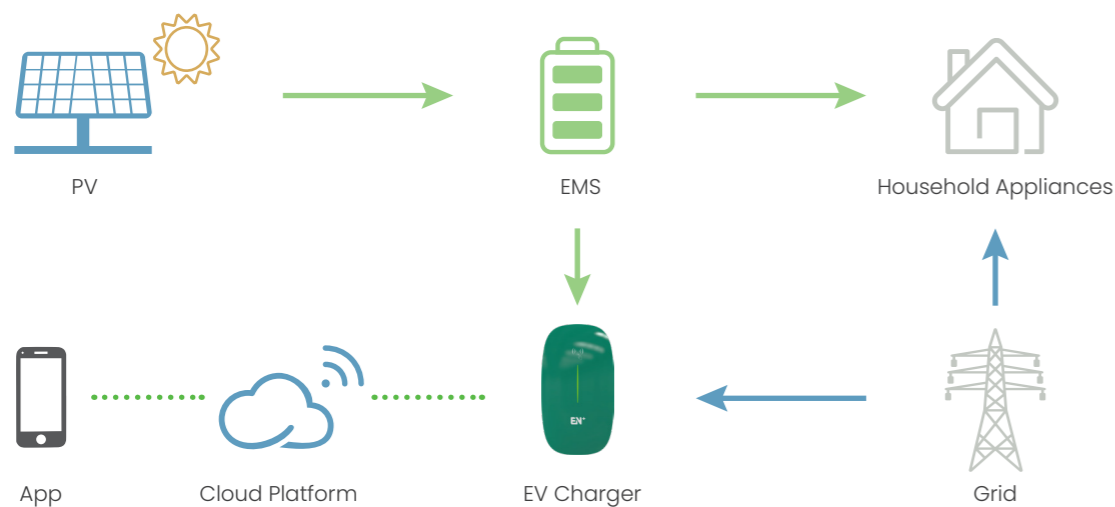

Green Mode

After PV generated power is supplied to other household appliances, there is still surplus electricity that can start the charge points (>6A).

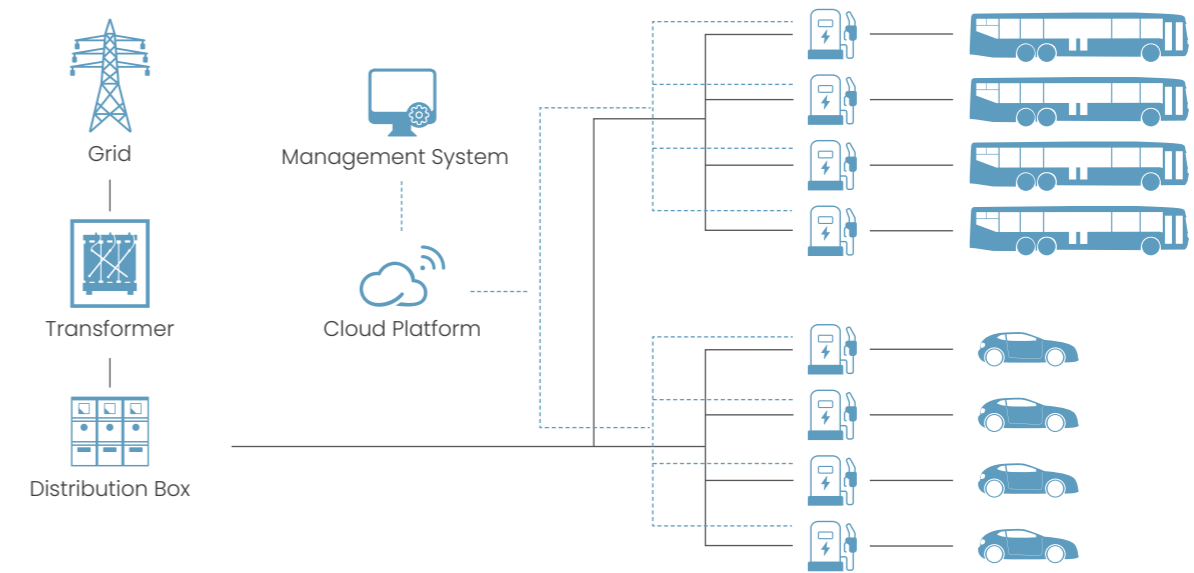

Mix Mode

After PV generated power is supplied to other household appliances, the surplus energy is insufficient to start a charge point (0-6A). The charge point charges according to user's settings to use up all the surplus electricity, and the power grid makes up the insufficient electricity.

Charging Solution

We provide everything that's needed to build a charging business, from charging facilities to customer services and smart energy management solutions. You can either manage your own network of charging stations or provide the service for other charger operators. All solutions are whitelabelled and can be customized to meet your customers' needs.

At home, at work, or on the go, we have the electric vehicle charging solution for you. Our solution is suitable for multiple scenarios. We help you to connect with your customers. EN+ offers all you need for running a robust charging business.
